

Managerial & Supervisory Skills

Duration: 3 days

This Program will help Participants:

- Use a relationship based management process that supports achieving improved business results
- Focus their efforts on issues they can control or influence and away from issues where they have no control
- Understand how their attitude affects the personal productivity of employees
- Improve employee productivity through the application of the effective Managerial Leadership Model
- Recognize how the behaviors of effective managers help with the achievement of effective business results.
- Understand what actions they need to take with their employees
- Practice sharing power, resulting in power becoming a multiplier within the company
- Examine and align their expectations, the company's and the employee's
- Understand the importance of demonstrating a caring attitude towards employees
- Gain employee trust through the use of respect and recognition

Course Outline and Key Topic Areas include:

Effective Leadership Attitude

- Understand the effect of the manager's attitude on productivity.
- Identify how attitudes get translated into daily actions on the job.
- Describe how the skills we learn in this Program can impact the beliefs, attitudes and actions of managers.

Communication: It All Starts with You

	Use a communication technique that leads you to understanding before			
attempting to be understood.				
	Naturally use a communication model during spontaneous			
communication.				
	Apply two principles that will increase your effectiveness when			
communicating with employees.				
	Practice the four communication skills.
